

Penmanship Club

Play games and have fun while improving ease and legibility!

We use engaging activities to help your child's muscle memory for writing. We play fine motor games to improve their grasp, letter shape, spacing, and placement.

Chalk, play-doh, games, curved wood, metal spoons, music, art and movement are fun ways to help a child's fingers move correctly for writing!

We will monitor if your child is struggling to write due to:

- an underlying perceptual difficulty
- co-ordination challenges
- unrefined fine motor skills

and may need a different approach, extra sessions, or individual work. We will contact you if we are seeing this as a barrier to success.

12 Week Session

Club Cost: \$110

Tues Mornings 7:55am - 8:30am

Dunn Library

Jan 21 - April 14

**no class 3/17*
